IRISH ARMISTICE CALLED
TRIALS DISGUST FRENCHFRANCE TO
WITHDRAW
ITS MISSION
AT LEIPSIC

(By Associated Press)
PARIS, July 8.—The French government has informed the allies that it will withdraw from the French mission appointed to follow the trials in Leipzig of Germans accused of violating the rules of civilized warfare.

An exchange of views has been going on between the allied governments as to the attitude to be taken in view of the verdicts rendered in the cases thus far decided.

The French are particularly indignant because of the recent acquittal of Lieutenant General Stenger, who was charged with ordering his troops to kill all French wounded and prisoners, and the hostile attitude of Leipzig crowds toward the allied missions. Newspapers comment bitterly on the result of the trials.

NEW WING FOR PLANES
TO CUT FLYING COST

(By Associated Press)
DAYTON, Ohio, July 8.—Years of effort to cut down the comparatively high cost of commercial aviation will be realized, officials of the Dayton-Wright Airplane company believe, with the patenting of a new wing, invented by an employee of the company. Patents now are pending in Washington.

The new wing will be controlled by the pilot, and in coming to earth can be so manipulated that it will arch, much as a bird's wing, enabling a practically undeviating glide to earth, instead of flying at various levels before alighting, it is stated. Pending its patents the company is disclosing nothing further regarding the nature of the invention.

The new wing, according to Colonel V. E. Clark, chief engineer of the company, will make possible a reduction in cost, by increasing the carrying capacity of any plane upon which it is installed by more than 300 per cent. The same wing area and the same low speed in landing are retained, he said.

This will be accomplished, Colonel Clark said, by increasing the

SOUNDING
OUT JAPS
AND U.S. ON
FAR EAST

(By Associated Press)

LONDON, July 8.—Great Britain, it was stated here today in a quarter which is usually possessed of reliable information, is believed to have made overtures to the United States, Japan and China on the possibility of a conference to discuss the whole eastern situation.

Official circles declined to comment on the nature of any communications with the United States, China or Japan, but it was said in those circles that it would be reasonable to assume that these countries would be fully sounded before Great Britain would show her hand.

What replies Japan and the U. S. may make nobody here pretends to know. It is felt, however, that insofar as the United States is concerned there could be a great chance of its response being more favorable if the Anglo-Japanese alliance had been denounced.

(By Associated Press)

CLEVELAND, Ohio, July 8.—Testimony considered to be vital in establishing the state's claim that Mrs. Catherine Kaber first attempted to kill her husband by poisoning before his murder, was given by Miss Crystal Benner, a nurse who attended him.

While Mr. Kaber always had vomiting spells after eating food at his home served by Mrs. Kaber, the nurse testified, he never vomited after eating at the hospital but once, and that was after Mrs. Kaber had given him candy.

FAMILY IS MADE
DESTITUTE WHEN
FIRE RAZES HOME

At 11:20 o'clock this morning an alarm was turned in for a fire in the residence of Mrs. Louise Jourkovich. The blaze started in the kitchen of the dwelling, on the hill back of the depot, formerly known as the Noel residence. The dwelling and its contents were consumed by the flames, not an article being removed from the burning building. At the time the fire was discovered four children were in the house, ranging in age from 2 to 19 years. The oldest girl had gone to the back yard to get some wood with which to start a fire in order to prepare the noonday meal, and, looking up, she saw the roof in flames. She rushed into the house and snatched up her 3-year-old brother, who was asleep on a bed, and ran from the burning building with the little tot. The mother, who is a hard working woman and who goes out each day washing or housecleaning, knew nothing of the destruction of her little home until taken to the ruins about an hour after the conflagration had wiped out all she possessed in the world. The family is in destitute circumstances and all they have left is the clothing they are wearing. No insurance was carried upon the dwelling.

The West End mill volunteer fire company laid a line of hose from the rear of the mill and was the first to get a stream of water on the burning structure, which prevented the spread of the flames to the long row of frame houses south of the burning house. The Tonopah fire department had two lines of hose playing on the flames and with the West End stream, soon subdued the flames.

The loss is estimated at \$1200. The cause of the conflagration is thought to have been a defective electric wire.

ASSISTANCE
IS NEEDED BY
FIRE VICTIMS

Mrs. Louise Jourkovich and her six children, who were rendered homeless this morning when fire destroyed their home, are in straitened circumstances, and the good people of Tonopah, with that true-hearted desert charity and fellow-ship, are asked to aid this homeless family which is bereft of roof and clothing. The Bonanza starts a contribution fund and will receive money, clothing, etc., which will be turned over to the Charity Mother of Tonopah, Mrs. J. J. McQuillan. Contributions can also be left at the postoffice or at either bank in Tonopah.

MRS. JOYCE
AWARDED
ALIMONY
OF \$1350

(By Associated Press)

CHICAGO, July 8.—Peggy Hopkins Joyce was today awarded \$1350 a month alimony, \$27,500 solicitor's fees and \$12,500 suit expenses by Judge Sabbath. James Stanley Joyce originally sought annulment of the marriage. Peggy filed a cross bill asking separate maintenance. She asked temporary alimony of \$10,000 a month and attorney's fees of \$100,000.

Attorneys for Joyce opposed the grant on the ground that she had married her client in a conspiracy with other persons to rob him of his wealth. The decision will be appealed.

The wreck occurred 10 miles west of Alpine, Texas.

Bohman's body was found four miles back from where the explosion occurred. He was attacked while the fireman was busy raising steam for a grade. The force of the explosion blew the boiler and engine about 30 feet, and the cab about 200 yards.

AMERICAN LEGION TO
HOLD BIG REUNION

(By Associated Press)

KANSAS CITY, Mo., July 8.—The stage is being set in Kansas City for the liveliest national convention the American Legion has seen when the veterans of the A. E. F. assemble here October 31.

Cowpunchers from Montana arrayed in "chaps" and sombreros will dash through the streets on cowponies provided by the Grover Metzger post of the Legion here, composed of local stockyard men. Airmen will perform aerial stunts under the direction of the Kansas City Flying club, which has posted prizes. Legionnaires from Iowa are scheduled to arrive in "side-door Pullmans" bearing the familiar "40 hommes, 8 chevaux" legend, so well known to veterans of French troop trains.

Also, among those present will be President Harding, General John J. Pershing, late "C in C" of the A. E. F., Marshal Foch and Admiral Sir David Beatty, hero of the battle of Jutland.

A delegation of five Legion men is scheduled to arrive from Canada and a similar contingent from Panama. Thirty-five hundred accredited delegates in all are expected. A much larger number, from the territory adjacent to Kansas City, will be on hand for the parade opening the three days' session. Many towns in Missouri and Kansas have sent word that they will have large delegations down for the parade.

Fifty-four men, holders of the Congressional Medal of Honor, the highest decoration for bravery that the country bestows, will be invited to attend the convention with their wives as guests of honor, all ex-

MEETING AS
CALLED BY
DE VALERA
UNDER WAY

(By Associated Press)

LONDON, July 8.—Notice was posted at the official residence of the premier that arrangements were being made for hostilities in Ireland to cease from noon Monday.

(By Associated Press)

DUBLIN, Ireland, July 8.—The conference between the Irish republicans and the southern Unionists, called by De Valera, was resumed here today. As the conference proceeded a crowd in the streets at intervals recited the rosary and lit any and kind of prayers. An interesting feature was the absence of both police and military. Only two policemen were in evidence, the crowd being regulated by volunteers wearing small American flags in their buttonholes.

Irish ballads were sung by boy vocalists at intervals as the people awaited news from the peace deliberations, and at one point a procession was organized which revolved about the neighborhood.

(By Associated Press)

LONDON, July 8.—English political writers seemed to believe that the prospect of an agreement at Dublin today should be regarded more with hope than faith in many quarters. Indeed, the situation was

penses being paid by the Legion. It is planned to build temporary tracks and run Pullman cars into the heart of the city, where they will be parked for the accommodation of delegates during their stay. In addition to the American Legion convention, various divisional and unit reunions will be held at the same time. Members of organizations desiring to hold such reunions are being urged to communicate with the registration division of the Legion convention here. A war department exhibit of war materials, used and captured, is also to be shown.
